

IMPLEMENT A SCHOOL-WIDE COUNSELING PROGRAM SEAMLESSLY

The Grow With Guidance (GWG) Educational Systems Model, created by Dr. Tommie Radd, can be utilized by school districts wishing to incorporate school-wide systemic developmental school counseling programs to build life skills. Complimentary consultation is offered through Ohio University's Department of Counseling and Higher Education.

THE DR. TOMMIE RADD PROFESSORSHIP IN SCHOOL COUNSELOR EDUCATION

The Ohio University Radd Professorship is working to expand and enhance the GWG system.

Dr. Tommie Radd, a forward-thinking educational leader and researcher, established this professorship with Ohio University in 2020 to further her pioneering work in school counseling. Housed in the Department of Counseling and Higher Education in The Patton College of Education, the Radd Professorship provides the counseling faculty member who holds the professorship with annual research funding and other financial support and intellectual property to allow Dr. Radd's scholarly work to be shared with school systems.

THE GROW WITH GUIDANCE (GWG) SYSTEM

The GWG System can be easily aligned with the ASCA National Model. The GWG System by design creates a process grounded in multidisciplinary best practice and is integrated within the heart of the classroom and school/district. The Grow With Guidance System includes the Educational System Foundation and the Schoolhouse Model.

The Grow With Guidance System:

- is available for primary, intermediate, middle, and high school levels
- is the foundation for an inviting school climate
- has various formulas to address the challenges schools face
- comes with all materials needed to implement and evaluate it in schools
- includes all the standards, benchmarks, indicators, performance observation/evaluation strategies, evaluations, and forms
- includes two diagnostic instruments, the CANA and ITS, which provide evaluation information
- provides Instrument and Report Service by the George E. Hill Center at Ohio University, which makes generating the diagnostic information from these instruments a snap

Ohio University's Department of Counseling and Higher Education provides assistance and consultation to school districts implementing the program.

THE RADD PROFESSORSHIP

Dr. Christine Suniti Bhat, Professor of Counselor Education at Ohio University, was named the first Dr. Tommie Radd Professor of School Counseling in 2021. Dr. Radd and Dr. Bhat will consult with school districts interested in the GWG System through the George E. Hill Center for Counseling & Research at Ohio University.

For information on how you can work with the Ohio University School Counseling Program and implement the Grow with Guidance system in your school, please contact: **740-593-4425 • gehcenter@ohio.edu • allsucceed.com**

The Ohio University School Counseling program has maintained continuous CACREP accreditation since 1985. For information on applying to the program, go to www.ohio.edu/education/school-counseling.
